

## INFRAGARD

**InfraGard** is a unique partnership between the FBI and individuals in the private sector for the protection of U.S. critical infrastructure and the American people. As one of the nation's largest public/private partnerships, InfraGard connects critical infrastructure owners, operators, and stakeholders with the FBI to provide education, networking, and information sharing on security threats and risks.

**InfraGard's membership includes:** corporate security managers, directors and C-suite executives, cybersecurity and IT professionals, chief information security officers, financial services executives, healthcare professionals, emergency managers, military and government officials, academia, state and local law enforcement, and more — all dedicated to contributing industry-specific insight to advance national security. Today, there are members in local InfraGard Member Alliances (IMAs), represented nationally by the InfraGard National Members Alliance (INMA). Each IMA is affiliated with the FBI field office in its region.

## Benefits

- ✓ FBI and other government agency threat advisories, intelligence bulletins, analytical reports, and vulnerability assessments.
- ✓ Presentations and trainings by the FBI or other government agencies.
- ✓ Direct, local-level engagement with the FBI, other government agencies, and private sector experts.
- ✓ Access to a members-only web portal featuring the latest FBI intelligence and critical infrastructure protection information — view, share, and collaborate with peers.
- ✓ Access to thousands of subject-matter experts within each critical infrastructure sector who share threat information as part of the INMA-led National Sector Security and Resilience Program and National Cross-Sector Council Program.
- ✓ Invitations to InfraGard events, regionally and nationally.

## Mission

The mission of the InfraGard program is to enhance our nation's collective ability to address and mitigate threats to United States critical infrastructure by fostering collaboration, education, and information sharing through a robust private sector/government partnership.

To accomplish this, InfraGard promotes ongoing dialogue and timely communication between its members and the FBI through local, regional, and national programs.

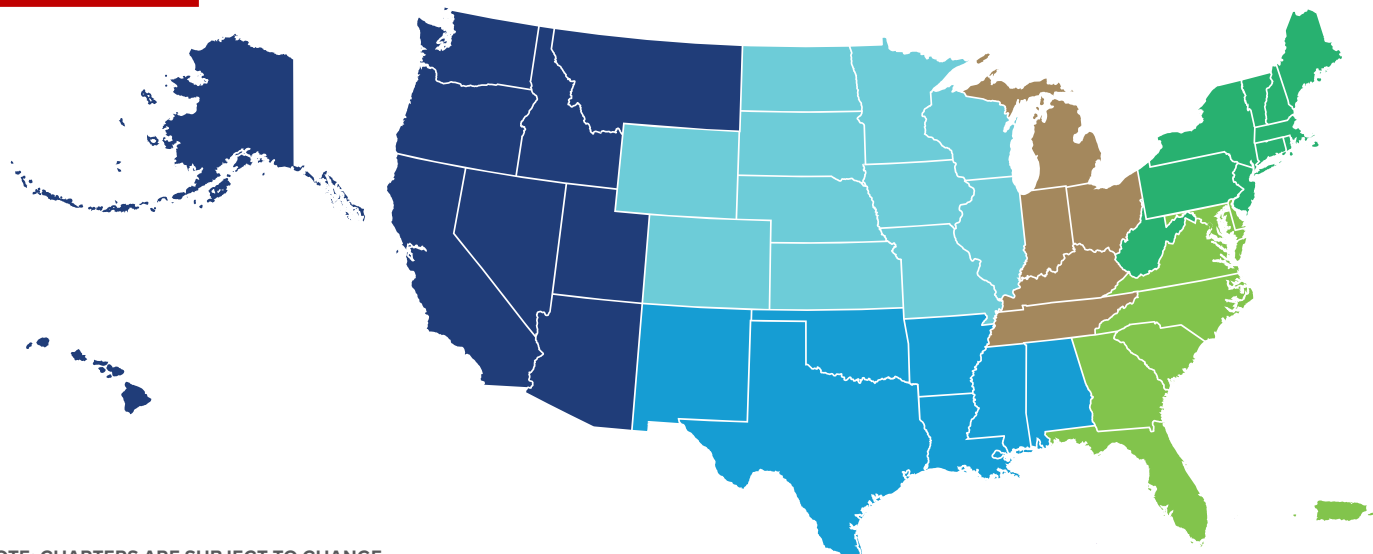

This two-way exchange of information equips InfraGard members with the knowledge, information, and resources to protect their respective organizations, while the FBI benefits from private sector engagement, insight, and expertise that can help prevent terrorism, cybercrime, espionage, and more.

## Membership Requirements:

- ✓ Be employed or formerly employed in a critical infrastructure sector.
- ✓ Be at least 18 years of age.
- ✓ Be a U.S. citizen (*as defined by 8 USC § 1401–1409 or 8 USC § 1421–1459*).
- ✓ Complete the InfraGard membership application form.
- ✓ Agree to the following: InfraGard's *Information-Sharing Policy*, *Privacy Act Statement*, *Agreements to Hold Harmless*, and *Code of Conduct*.
- ✓ Consent to an FBI-conducted security risk assessment (includes local, state, and federal criminal history and other security-related database checks).

*Note: Students are eligible to apply as long they meet the above membership requirements.*

## InfraGard Structure:

The InfraGard program is managed through a partnership between the FBI's Office of Private Sector and INMA, an independent 501(c)(3) non-profit organization which manages local IMAs.

The IMAs are also incorporated as non-profit 501(c)(3) organizations and work with their respective FBI field offices to hold chapter meetings, host events, educate, and serve their communities. Each IMA has a board of directors to manage its activities and operations. Upon being accepted for membership, individual InfraGard members have the option to join their local IMA.
